WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNOFFICIAL PRODUCT:

The use of unofficial products and peripherials may damage your PlayStation game console and invalidate your console warranty.

HANDLING YOUR PLAYSTATION DISC:

- This compact disc is intended for use only with the PlayStation game console.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

story

"The War of the Goddess..." the war between the human race and an evil deity... The Evil Goddess, who had once driven much of the world to their deaths, had risen again. Humanity silent and wild-eyed with desperation, teetered on the edge of an abyss filled with terror. But not all had lost their voice of reason: Six heroes led by the hand of Fate joined forces to bring light back into the world. Among the heroes were those who were not of the human race...

The Cucurotheatro, Magical Puppeteers – the Tribe of Carnelian Gaze.

They were born under a different Law of Life from humans, possessed of crimson eyes and the power to detect "Jewels" the vehicles of this world's spiritual energies. Using these special Jewels the magical puppeteers perfected the art of infusing lifeless dolls with a soul; the dolls, called magical puppets, grew with each Jewel given them, and came to achieve physiques and abilities to rival a monster's.

Only the chosen – known as "Magical Puppet Masters" – among even the ranks of the Cucurotheatro could control the dolls, which came to be called "Magical Puppet Monsters". The magical puppet monsters fought with the rest as sacred beings in the War of the Goddess, but when the war ended, the Cucurotheatro disappeared from sight without explanation. And with the passage of time, the knowledge of the mystical Cucurotheatro faded away from the human memory.

The story you are about to begin is the tale of a boy with Crimson Eyes.

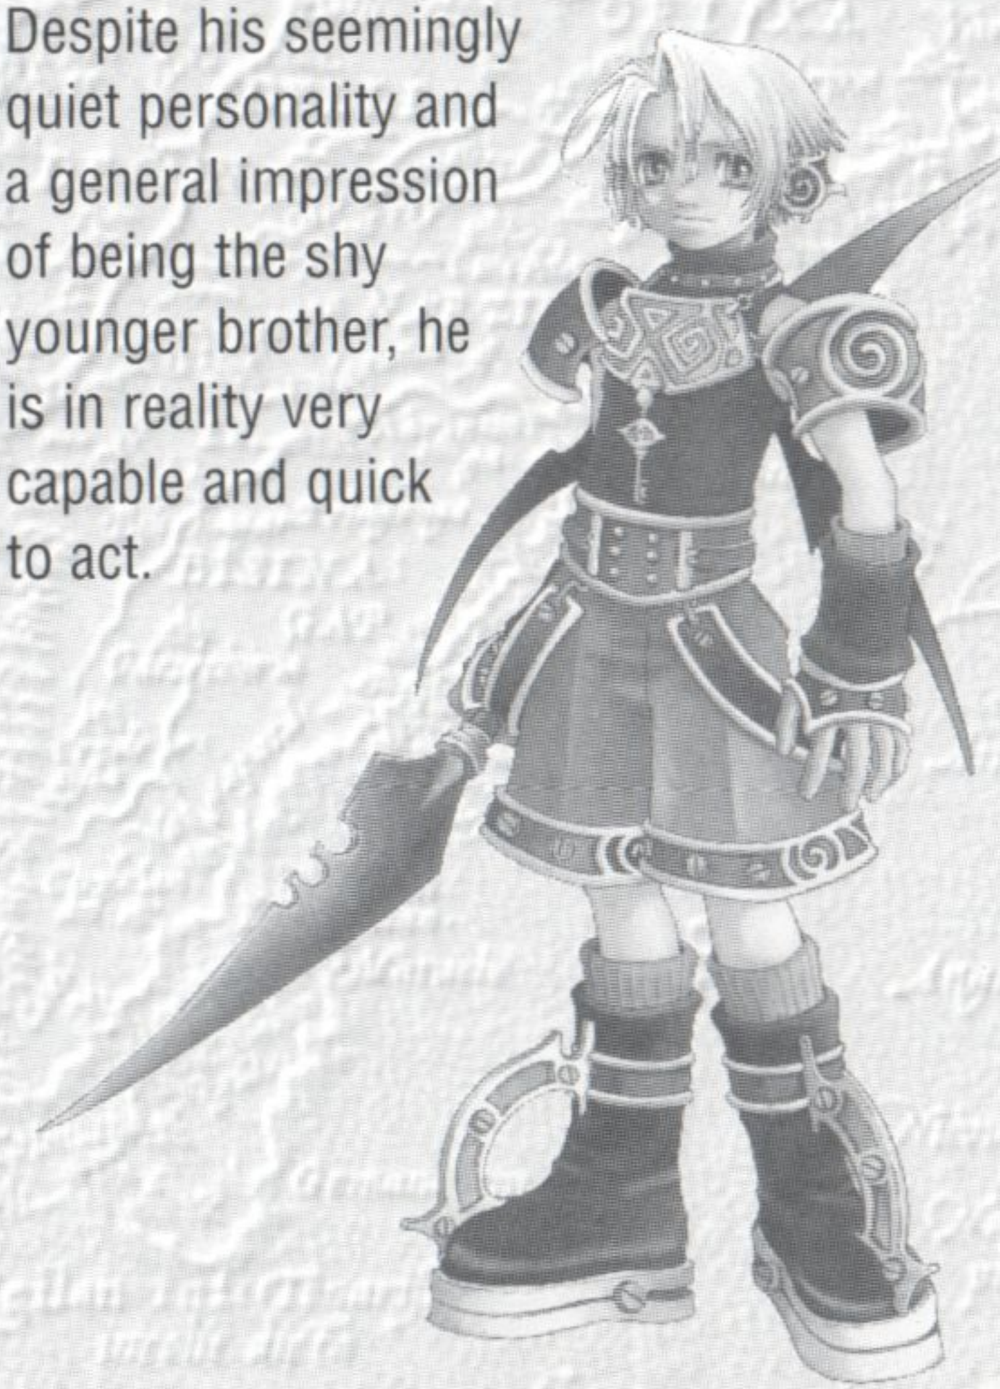
the characters

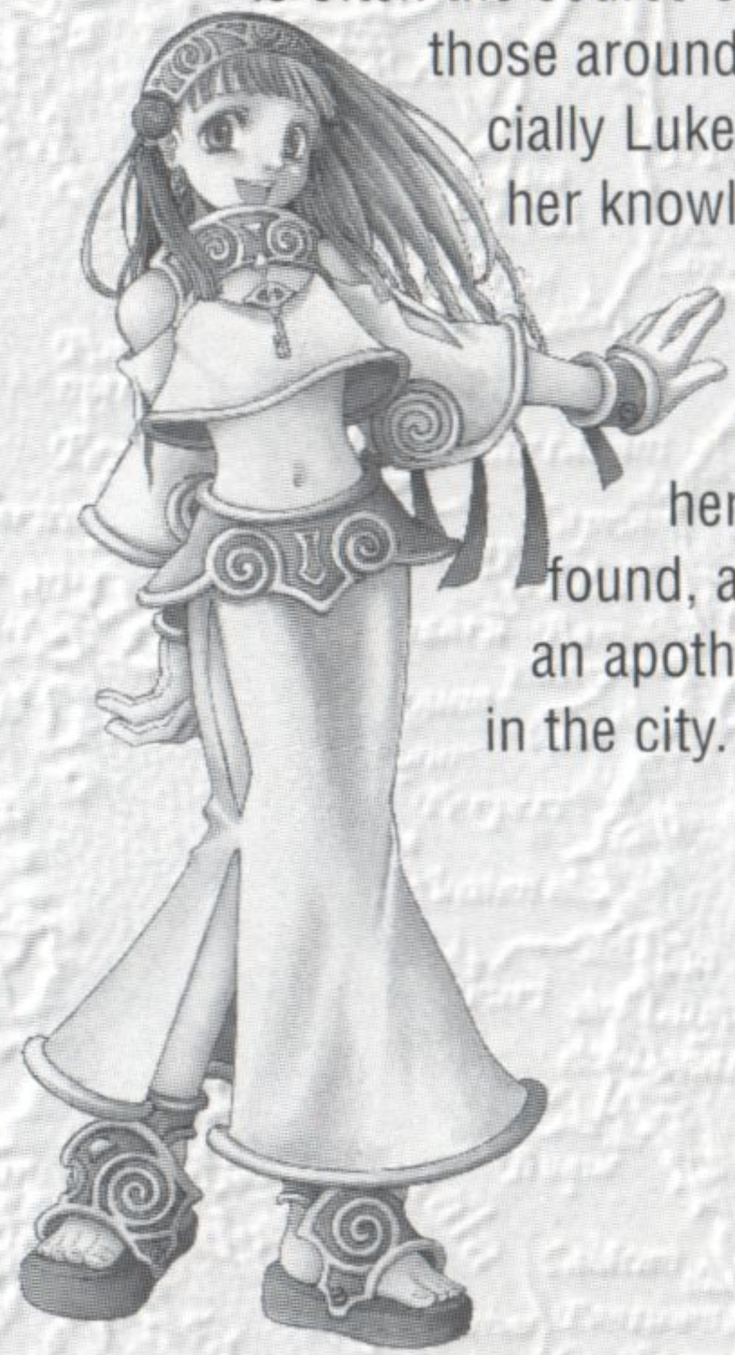
Luke,
the Boy With Crimson Eyes.

Luke was born with the blood of the Cucurotheatro, the tribe known to be able to give life to and control magical puppet monsters. However, he is ignorant of his birth, and indeed of the Cucurotheatro, as his parents had passed away when he was still a baby, leaving the secrets of the tribe untold. Despite his seemingly quiet personality and a general impression of being the shy younger brother, he is in reality very capable and quick to act.



Elena,
the Caring Sister.

Luke's older sister, and hence another member of the tribe of the Cucurotheatro magical puppeteers. However, the ability to control magical puppet monsters is not among her powers. A parent figure to Luke, in the absence of their father and mother, Elena's capacity for creating confusion is often the source of worry for those around her, especially Luke. However, her knowledge of subjects such as medicinal herbs is profound, and she runs an apothecary shop in the city.



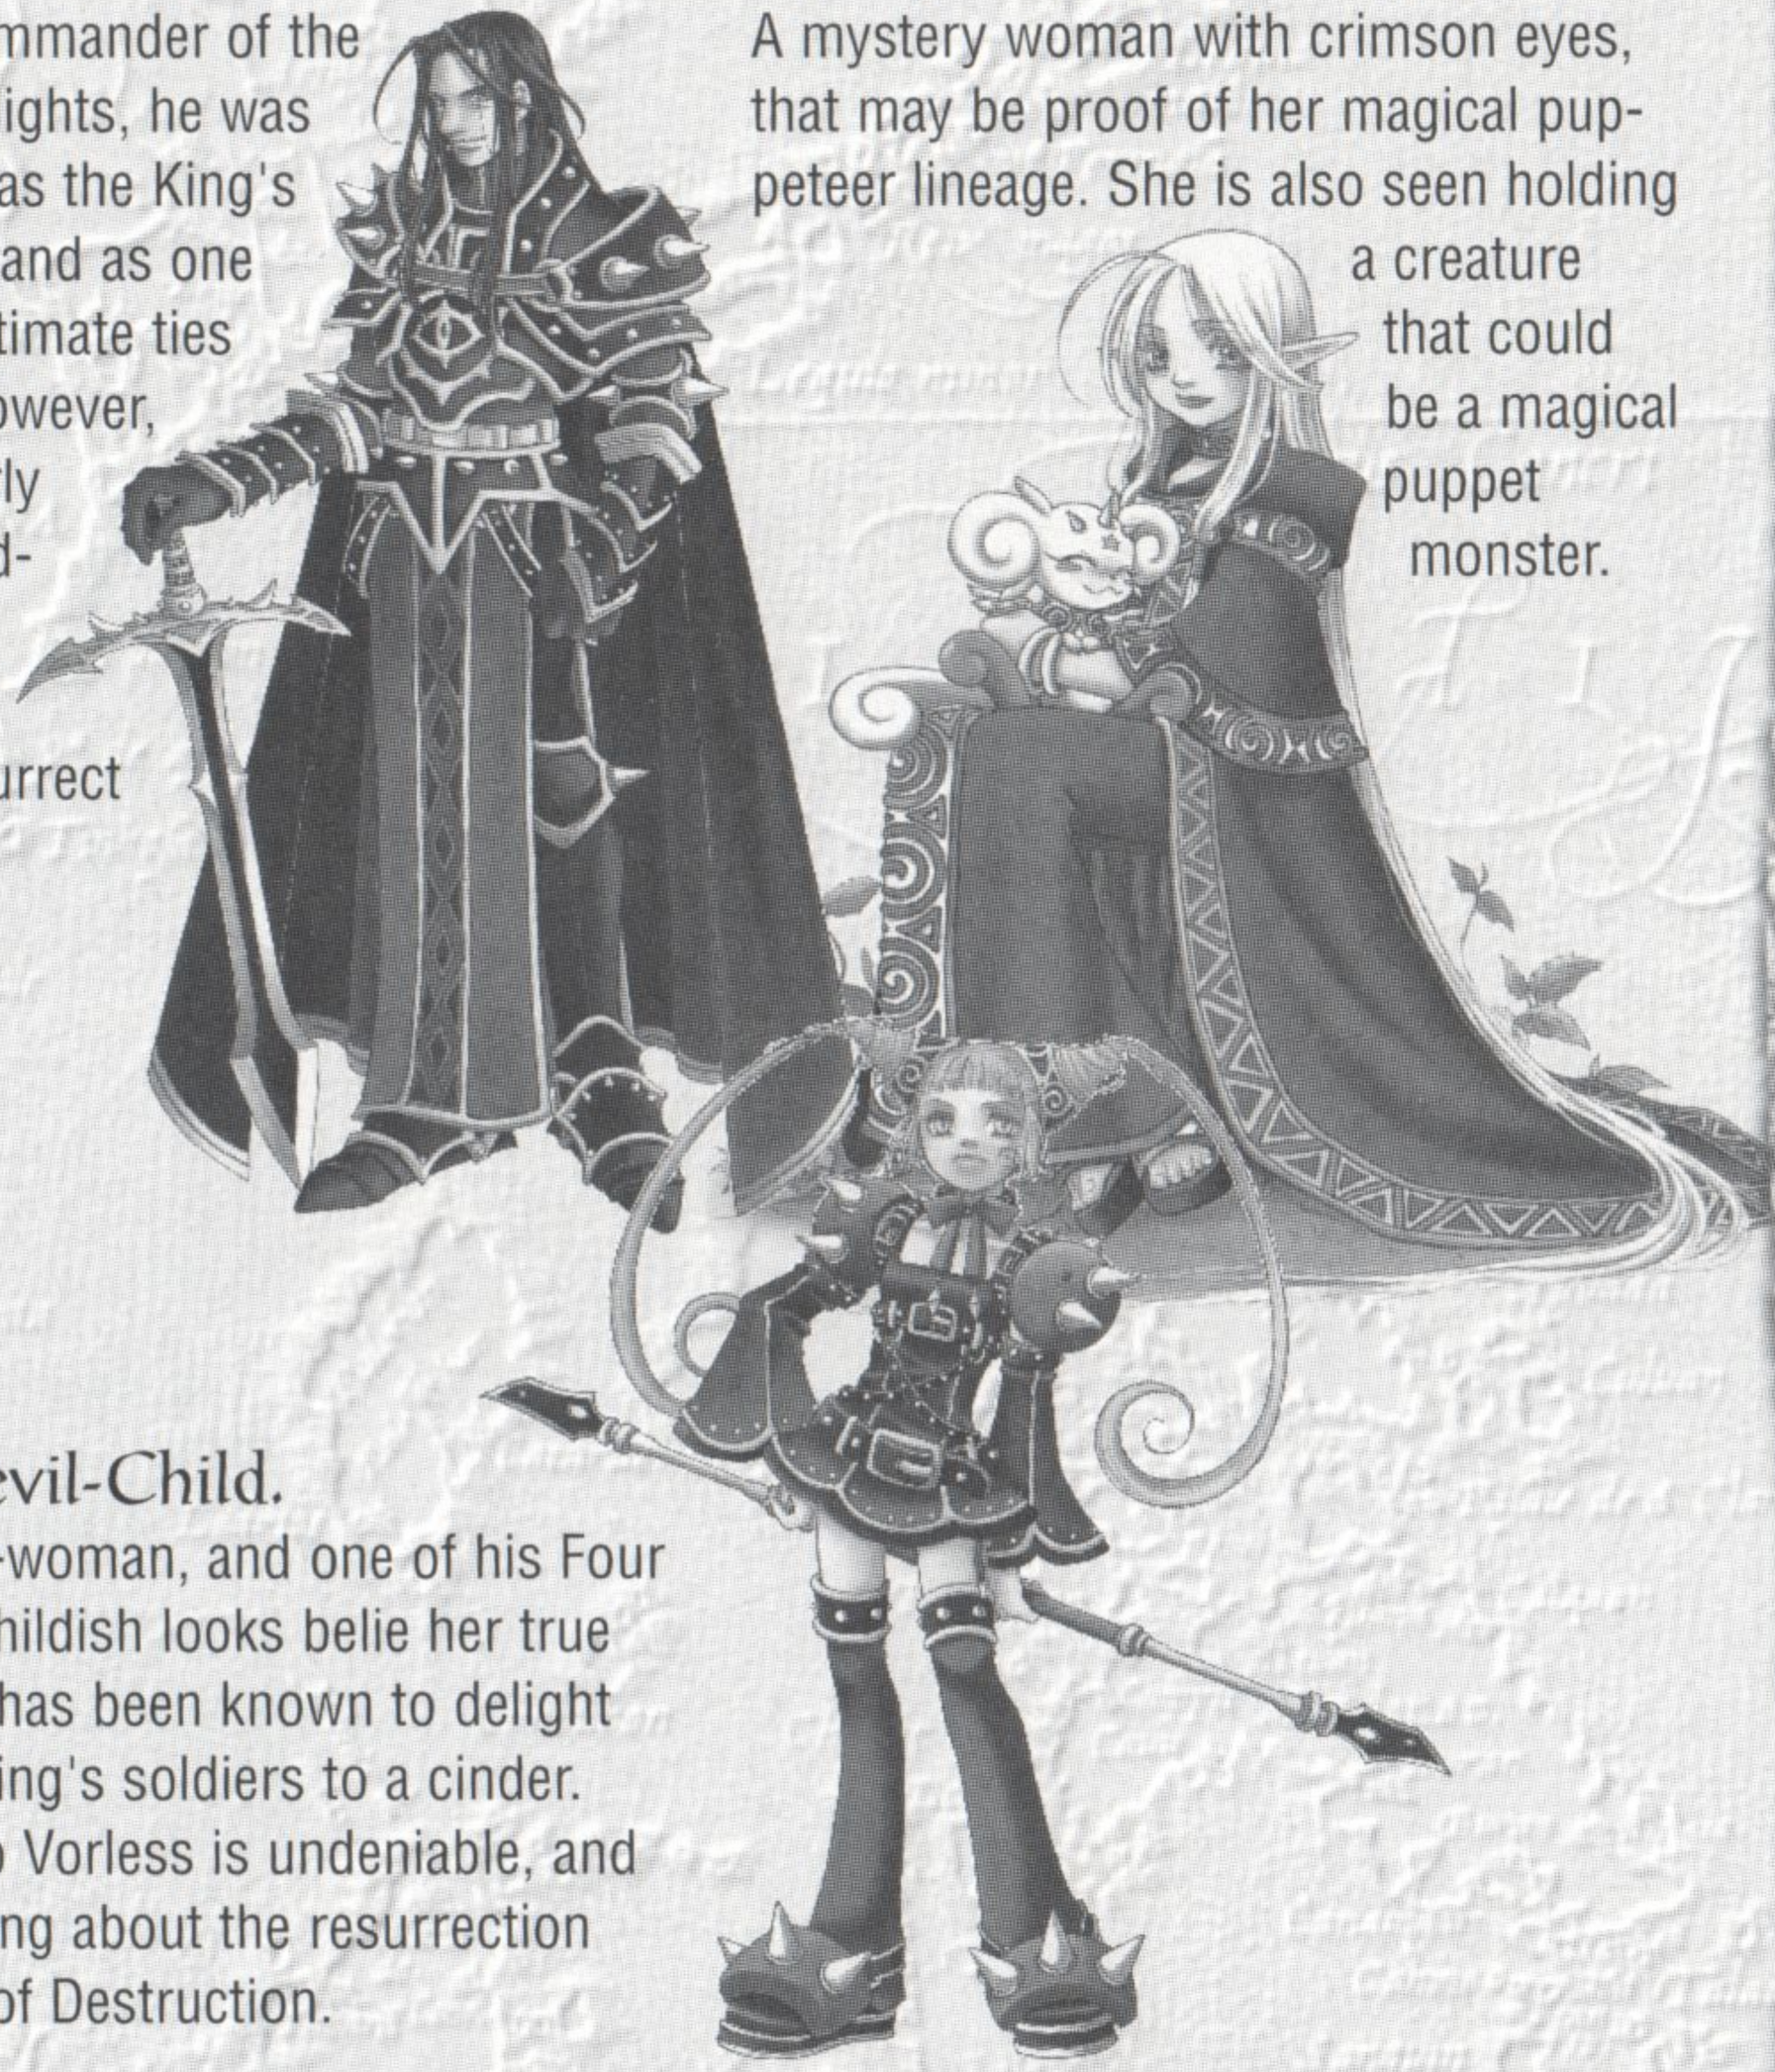
the characters

Vorless, the Fallen Hero.

The supreme commander of the inner circle of knights, he was formerly known as the King's right hand man, and as one with the most intimate ties to the throne. However, for reasons utterly unknown, he suddenly incited a rebellion. His objective: to resurrect the Goddess of Destruction.

Shillay, the Wise illuminator.

A mystery woman with crimson eyes, that may be proof of her magical puppeteer lineage. She is also seen holding a creature that could be a magical puppet monster.

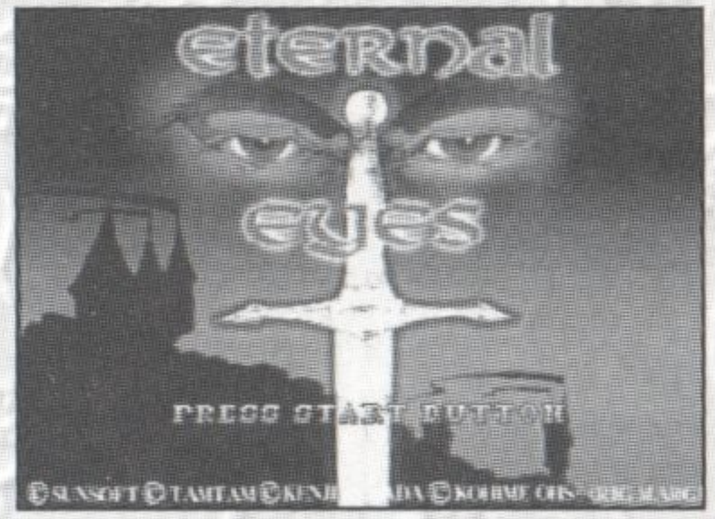


Lolita, the Devil-Child.

Vorless's hench-woman, and one of his Four Overlords, her childish looks belie her true nature, and she has been known to delight in burning the King's soldiers to a cinder. Her allegiance to Vorless is undeniable, and she works to bring about the resurrection of the Goddess of Destruction.

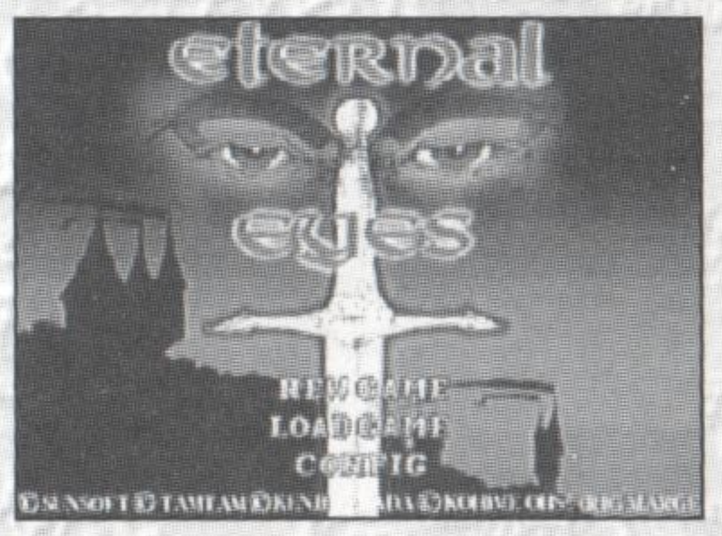
starting the game

Insert the Eternal Eyes disc and press the Power button. When the title screen appears, press the START button to start the game.



Loading and Saving Data

You can save and load your current game data using a Memory Card. To save or load your data, insert a Memory Card into MEMORY CARD slot 1.



• Starting a new game

To start a new game, select NEW GAME and press the × button.

• Continuing a saved game

To resume a previously saved game, select LOAD GAME and press the × button.
When the files in the Memory Card are displayed, choose the one you want to load and press the × button.

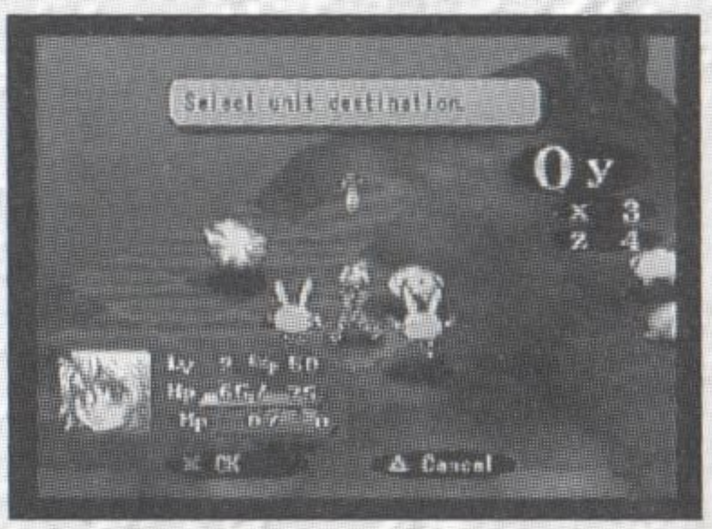
battles

Battles in this game are worked in turns. When it's the player's turn, bring the cursor over the character and press the × button to bring up the battle menu. Choose a command and press the × button. Every time a character attacks an enemy, experience points are awarded, and if that increases the character's level, the character's health is brought up to full. The only characters that participate in battle are Luke and magical puppet monsters.

Battle Commands

• Movement

With the directional buttons select a square within the displayed range, and press the × button. Then, if you are happy with the place you have selected, choose "OK" and press the × button to move the character. When moving, the height, and the X and Y co-ordinates of the map are shown. Once you have moved, you cannot cancel the move and take the character back in the same turn.



battles

• Attack

With the directional buttons choose the square within the displayed attacking range which you want your character to make an attack on, and press the × button. The attacking range differs from weapon to weapon.

• Magic

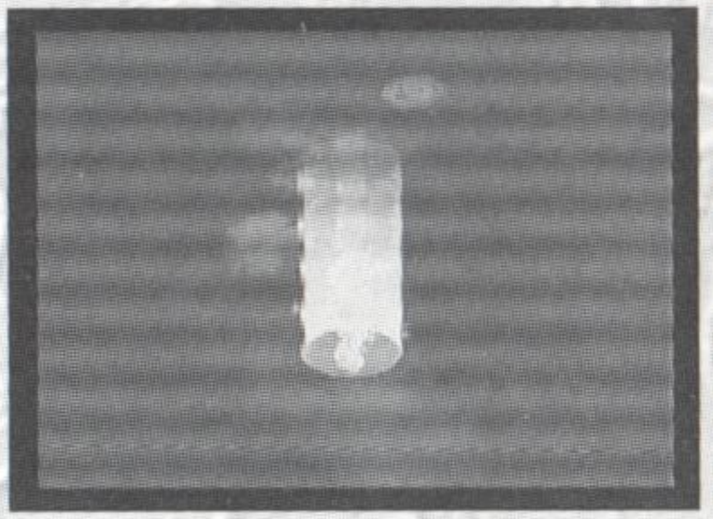
A command that can be selected by the magical puppet monster.

With the directional buttons choose a square, within the displayed magic range, and press the × button.

• Jewel

If you lay a jewel on the ground it becomes a trap, if you throw it at an enemy it does them damage, and if you throw it at a magical puppet, it becomes a Mappemon. First choose the color of the jewel, and then specify the actual jewel.

With the directional buttons choose a square, within the displayed throwing range, which has a Mappemon or a magical puppet on it, and press the × button. For more information on Mappemons and jewels, see page 23.



• Item

Uses an item you already have. Select the item you want to use from the list that appears and press the × button. The item lists can be switched by using the ⬅ and ➡ directional buttons.

With the directional buttons choose a square within the displayed item range which you want to use the item on, and press the × button.

• Status

Shows the character's status.

• Auto

Sets whether you control your magical puppet monsters or whether they act on their own. If you want to control them, choose "OFF."

• Wait

Ends the turn, and keeps the character standing in that position. Use it when you don't want a character to move at all.

When all your characters have finished their actions, it becomes the enemy side's turn.

Sub Commands

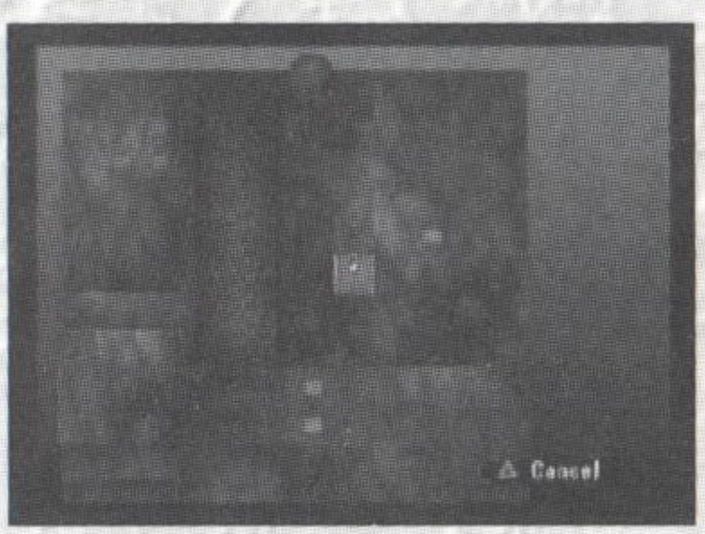
When you press the ○ button, below commands are shown.

• End Turn

Issues the wait order to all your characters that have not yet done anything this turn, and ends your turn.

• Settings

Brings up the config screen.



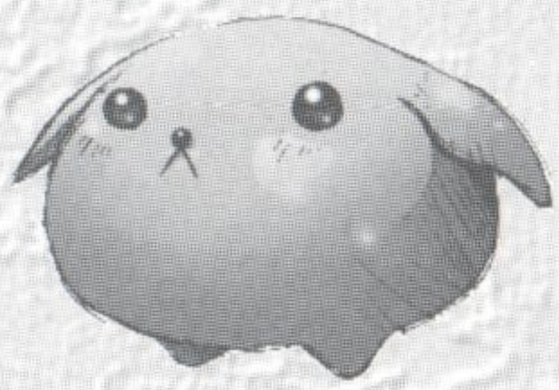
• Overview

Shows the overview map. You can move the cursor around with the directional buttons.

Parameter Changes

Among the magic and items are some which can alter a character's parameters.

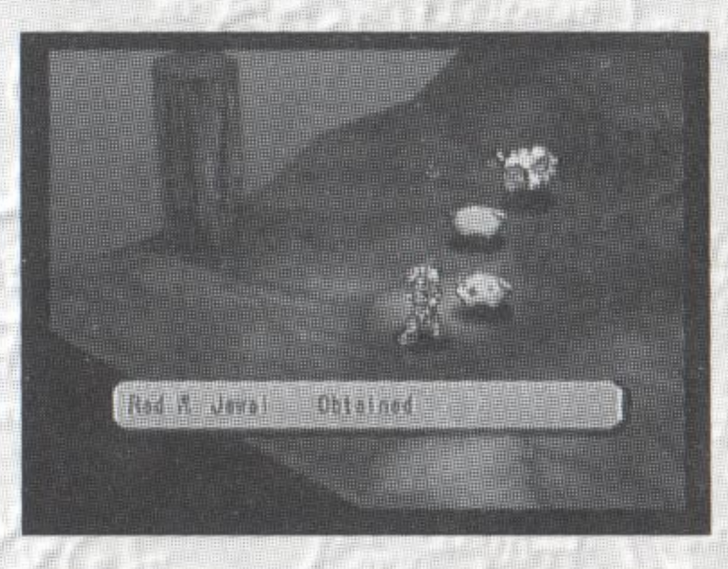
Ison:	Decreases enemy's resistance.
Tomento:	Increases ally's resistance.
Yaraff:	Decreases enemy's magical force.
Wokus:	Increases ally's magical force.
Lips:	Decreases enemy's hit rate.
Skily:	Increases ally's hit rate.
Incle:	Decreases enemy's evasion rate.
Kishone:	Increases ally's evasion rate.
Terman:	Decreases enemy's attack power.
Bize:	Increases ally's attack power.
Tarm:	Decreases enemy's defense power.
Ahz:	Increases ally's defense power.



Treasure Chests

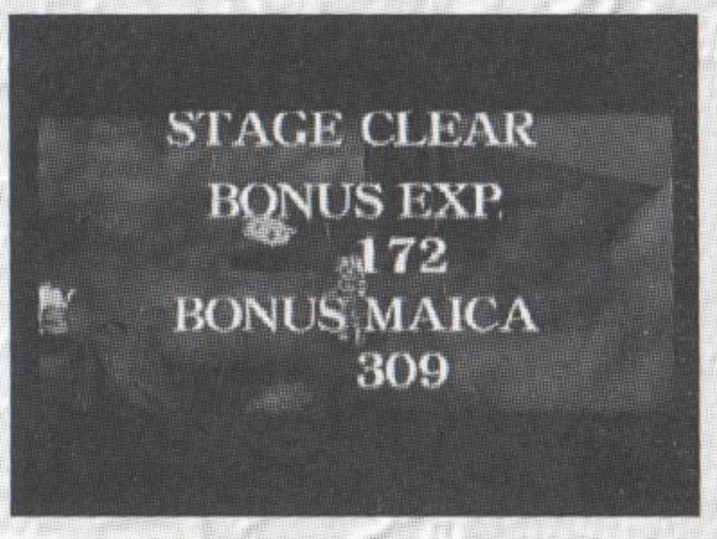
Sometimes when you kill an enemy, a treasure chest may be left behind.

To obtain what is inside the treasure chest, you have to attack it. However if an enemy destroys it before you do, it is lost.



Stage Cleared (The End of the Battle)

The stage is cleared when you kill off all the enemies. At this point all of your characters that have survived the battle receive bonus EXP (Experience Points) and bonus Maica (Money). Also, it is possible to return to a dungeon that you have already cleared.

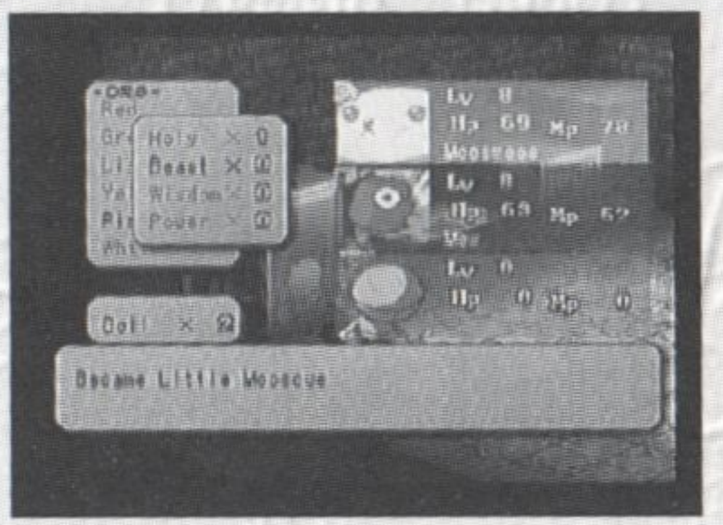


magical puppet monsters

Magical puppet monsters, a.k.a. Mappemon, can be created by getting a magical puppet (which you can find for example in a dungeon) and throwing jewels at it. You can take up to three of them into battle. Also, by giving them different kinds of jewels, they may evolve, or perhaps learn some new magic.

Mappemon Evolution

For a Mappemon to evolve, there are two things that you have to do. First, you have to make sure your Mappemon is at a high enough level to evolve, and secondly you have to give jewels to it, in a given order. Throwing jewels at them randomly will get you nowhere.



For example, let's say there is a Mappemon, which evolves when a red jewel is given to it when it is at least level 2.

If you give this Mappemon any jewel other than "red," it will not evolve, but may learn a magic spell or, if not, get an increase in status.

Even if you do give it a red jewel, the Mappemon will not evolve if it's level is not at 2 or higher.

Each time a Mappemon evolves, the requirements for the next evolution also become harsher.

For example,

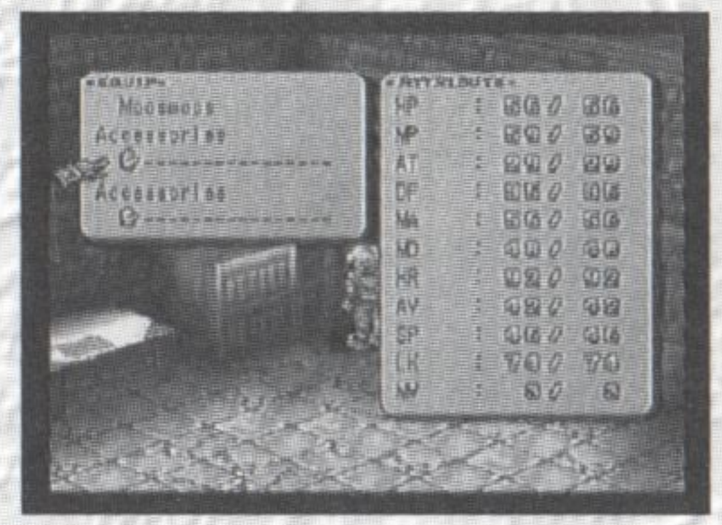
First Evolution: Level 3 or greater, Red Jewel x 1
Second Evolution: Level 8 or greater, Red Jewel x 2
Third Evolution: Level 15 or greater, Red Jewel x 2 + Yellow Jewel

Jewels can be found inside treasure chests in dungeons. Go ahead and try out lots of different evolutions.

Mappemon Equipment

Mappemons can wear up to two accessories.
Accessories are not sold at shops, and the only way of getting hold of them is from treasure chests in dungeons.

If a Mappemon dies...



If a Mappemon's HP is reduced to 0, it turns back into a magical puppet.

Arms

Item Name	Effects
Wooden Sword:	Oaken Sword. Great for Beginners. But once it's snapped that's it. Good luck.
Bronze Sword:	Easy for beginners to use. A bit heavy, but you'll have to put up with it.
Iron Sword:	The blade has been made particularly sharp. Rusts easily, needs care.
Spear:	Small and light. Great for beginners. Not that expensive to buy.
Javelin:	Popular among the soldiers of Gross Castle. Suitable for more experienced adventurers.
Flame Lance:	A spear which is able to incinerate anything with just one thrust.
Short Bow:	Relatively small. Great for beginners. Take care of it and let it will last a lifetime.
